Join us as we kick-off the S.S. Lapointe Watershed Improvement Project, an effort to address sources of sediment, nutrients, and *E.coli* in the S.S. Lapointe watershed and Lake Erie.

Planned project tasks include a farmers' shop talk series, tall ship sails for stakeholders, onsite septic system education, and cost share funding to implement agricultural best management practices (BMPs).

Learn more at <http://rriearth.org/lapointe-project/>.

This project has been funded wholly or in part through Michigan Department of Environment, Great Lakes, and Energy's Nonpoint Source Program by the United States Environmental Protection Agency.
