

National Public Lands Day

Saturday, September 29th
10:00 am to 12:30 pm

▶ Marsh Volunteer Collaborations -Purple Loosestrife chapter

Wear long pants and close-toes shoes.
Lunch will be provided.

Join us to remove Purple Loosestrife, a deceitfully beautiful invasive species to better allow the native plants to flourish. Crosswinds Marsh features lush wetlands, a diverse array of rare plants and wildflowers, and an abundance of wildlife. Unfortunately, non-native plants and shrubs are crowding out the native plants. By clearing invasive species from our parks, we are creating healthier ecosystems for our native species.

All participants must complete a release form, and all minors must be accompanied by a parent or guardian.
