WARNING
DEEP
WATER

"Deep Water" Sign - 12"x 9" heavy white plastic with red letters.

Flags - 4x5" fluorescent orange plastic on a 36" wire.

Fertilizer tablets - 10-gram, nutrient rich starter tablets supply all the nitrogen, phosphorus and potash needed by seedlings for 2 years. More nutrients released during growing season when bacterial activity is greatest. Use 1 tablet per seedling or transplant.

Plant markers - Galvanized steel wire 10" tall with zinc labels. Labeling area 1" x 2 5/8" is firmly attached to the wires.

Mosquito Barrier, a concentrate to be mixed with water, is a poison-free product made with 99% garlic extract that is safe to use around children, pets and fish. When use as directed it does not harm vegetation, nor does it impart any garlic flavor or taste to food plants, and can be applied to open water. A spraying of Mosquito Barrier can last 2 to 4 weeks depending on weather conditions. The one-quart bottle covers 1.25 acres, while the gallon covers 5 acres. Plantskydd Animal Repellent This all natural, non-toxic repellent provides effective protection against deer, rabbits and other small herbivore critters. Lasts up to 6 months over winter on dormant plants, and 3-4 months during the active growing season. For best protection, treat plants before browse begins. Repels by odor not taste and will not harm animals. Apply to conifer and hardwood trees, fruit trees, shrubs, ornamentals and flowers. A soluble powder or ready to use liquid. One-quart liquid spray protects 80 to 100 one foot high plants; five-quart liquid jug treats 400 to 600 one foot high plants; 1 lb. soluble powder treats 300 to 400 one foot high plants, applied as a spray with a pressurized hand-held or backpack type sprayer. Use for deer or rabbits.

Pedestal Riser - raises barrel 13 " off the ground, made from used cedar posts.. See rain barrel for picture.

Rain barrels - 55 gallon barrel to harvest water from downspouts for outdoor watering. Colors black, blue, gray, terracotta. Aluminum screening on top keeps out leaves other debris & insects. Includes front hose shutoff; side fitting to connect to multiple barrels; and over flow with fitting & cap

Root dip - (TerraSorb) A powder developed specifically for moisture retention. When mixed with water creates a gel that clings to a plant's roots. A 2-ounce bag will treat about 2,000 seedlings; fewer transplants or plants with larger root masses.

Tree Guards - Tough vinyl built for durability. Protect young trees from winter rodents and sunscald. Remove and reinstall annually to avoid girdling 1-1/2 inch diameter.

Signs; No Trespassing & Trees Planted Keep Off
71/2 x 11" heavy aluminum, black print on yellow background

Tree Planting Bar - A fast, convenient way to plant seedlings. Tubular steel handle and shaft with wedge-shaped blade makes the hole just the right size. Not recommended for transplants.

Tree Shelters - Three straight wires (legs) push into the ground for stability, center over the seedling, embedding the edge into the soil.

Weed Fabric Squares - A porous polypropylene fabric allows air, water & nutrients to pass through while controlling weed growth. Five staples are included to anchor mat to soil.
